

Pool Closing Newsletter

August 25th, 2021

Dear Pool Owner,

Fall is quickly approaching and what a year it has been! With all the challenges we are facing on a daily basis in our homes, at work, and in our communities, we continue to be amazed by the support, loyalty, and patience of our customers. We are so appreciative of your business and hope everyone had a wonderful and safe summer. Now is the time to start scheduling your pool to be winterized. We recommend scheduling a few weeks in advance.

2021 Closing Pricing

To schedule:

- Please call our office at (208) 743-0116
- Email us at bronson@bandbpools.net
- Stop in to our store at 1120 Bryden Ave. in Lewiston.

OUT OF TOWN CLOSINGS

Carpool dates (free travel) are as follows:
(additional days may be added if needed)

Pullman/Colfax – Tuesday, October 5th

Pullman/Moscow- Wednesday, October 6th

Moscow/Garfield/Palouse – Thursday, October 7th

**Walla Walla/Milton-Freewater/College Place – Mon. Oct 11th- Thurs. Oct 14th
(please contact the office to find out which date is your area)**

If these days do not work, we will still do our best to schedule those of you together so that you may receive reduced travel costs.

For those of you in areas not listed above (**Pomeroy, Dayton, Orofino, Culdesac, Kamiah, Pendleton, etc**) we will coordinate with other customers in your area as you schedule.

Pool Closing Guidelines and Reminders

- 1) Not only do proper pH levels allow the other chemicals to do their work, but it is important to note that low and high levels can cause damage to a vinyl liner. Under the right circumstances with pH below 7.0, the liner can actually grow and develop unsightly wrinkles. High pH greatly accelerates the aging process and shortens the life of the liner. **We recommend testing and adjusting your pH as needed prior to winterizing your pool.**
- 2) Draining of Pool:
 - a. Pools **WITH** automatic covers do NOT need to be drained down. This ensures that the cover fabric is supported throughout the winter.
 - a. Pools **WITHOUT** automatic covers will need to be drained down 4"-6" below the skimmer **PRIOR TO OUR ARRIVAL.**
- 3) If you are in need of a **NEW WINTER TARP**, please let us know at time of scheduling to ensure we can have it in stock. We will have extra water tubes in our vans.
- 4) If you are interested in a **MESH SAFETY COVER**, call us as soon as possible for a bid.
- 5) Please make sure gates, garages, pool rooms, etc are unlocked (or that we have the codes/keys) for easy access of our technicians.
- 6) Please leave out your **PINK JUG OF RV ANTIFREEZE** if you would like us to reuse it. It is put into the skimmer unopened to prevent the skimmer from freezing.
- 7) **WE REPLACE WINTERIZING PLUGS EACH YEAR.** This is to ensure there are no problems with the plugs that may not be visible to our techs. This is a company policy and we are unable to make exceptions.
- 8) **IMPORTANT REMINDER: If you decide to close your pool while the weather is still quite warm or if we have a warmer winter, additional measures may be required to prevent an algae-filled pool next spring. We recommend testing your chlorine levels every few months until your pool's opening and adding chlorine/algaecide, as needed.**

- 9) Please make us aware of any special instructions you may have for our technicians, as well as anything out of the ordinary. We will do our best to accommodate. **Call us with any questions!**

Thank you for a great summer!
